Marbella Wedding

Farm & Lifestyle

An isolated eco villa in the mountains

If you are a lover of organic food, you use organic cosmetics and buy clothes as sustainable as possible it makes sense that you want to get married in a place like this.

Their philosophy consists of a real commitment to the community he is in, to polyculture and to the return to the ground and the rhythms of nature.

The first impression is that of a rustic farm, but details such as carpets, worn leather sofas and the hippie design that invades the entire house soon come into view. An irresistible detail: a couple of furniture come from the 2001 set of *Odyssey in Space*.

It has 9 rooms, all very different from each other and a spa where, before and after the wedding, you can enjoy relaxing in water or Natura Bissé treatments.

All food they offer is made from organic seasonal products.
